

Committee	FULL COUNCIL
Date	16th September 2019
Agenda Item	14

To consider actions which could be taken by HTC to counteract climate change

All levels of government are being encouraged to plan a response to the dangerous changes in climate world-wide. HTC also needs to give this some thought.

Some initiatives to be considered:

- Installing at least one electric car charging point in Halstead – grants available
- Encouraging home installation of charging points – grants available
- Developing electricity generation through solar panels on land owned by HTC- car park roof/ Queens Hall roof
- Reusable coffee cup campaign in the town
- Planting trees
- To encourage recycling of vegetable matter, plastic, paper, glass and metal through separate bins on the street
- To encourage water collection on allotments

Recommendation: that HTC develops a policy on climate change.

Sarah Greateorex Town Clerk
