Date	11 January 2021
Agenda Item	7e

To approve the purchase of a new Line marker for Courtaulds

The groundsmen have requested a new line marker for marking out the football and rugby pitches, and having surveyed what is available, they feel that this is the best tool for what they need to do

Costs

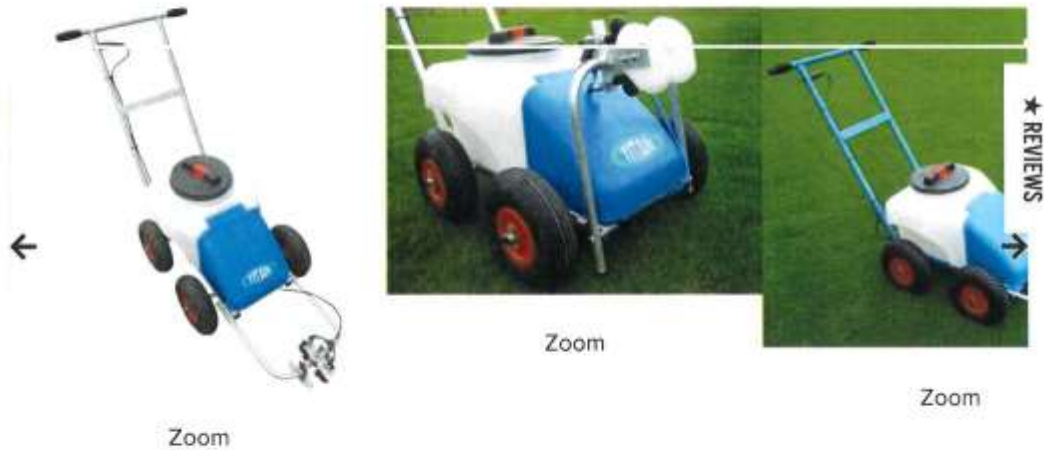

£599.95

£719.94 including VAT

Recommendation : that the line marker is purchased out of Capital reserves in April 2021

Sarah Greateorex Town Clerk

Titan Spray Line Marker

Developed in consultation with a professional groundsman.

The Titan spray line marker is a hand built, well balanced and very robust spray line marker offering high specification and exceptional value for money.

Whether its single or multi-pitch line marking, the TITAN spray line marker will deliver a smooth, constant and even spray line marking performance.

The battery has a long powerful life and will drive the pump for a full days marking from a single charge. The pump is both efficient and economical and when used in conjunction with the variable pressure valve, enables the groundsman to control the volume of paint delivered to the twin spray heads for a dense professional line or a variable more economical line.

The Titan spray line marker is designed so components can be easily accessed. The battery is easily removed and can be charged independently from the machine.

The TITAN spray line marker is also suitable for use on hard surfaces such as tarmac, for marking out car parking spaces etc. Please note that the paint to be used for this purpose is the Perma-Mark.
