Recommended Quantity: 6

£6.81

ea

(Ex VAT)

This cement is easy to use and is pre-bagged and measured for your convenience. Specifically designed to install your dig in posts securely in the ground. This rapid set post cement is suitable for a wide range of dig in fencing types including, Armco and Palisade fencing posts. The cement will not affect any posts that are powder coated allowing for you to keep your existing fencing structures overall appearance.

- 0 +

Recommended Quantity: 1

£17.00

ea

(Ex VAT)

This strong heavy-duty padlock offers an additional level of security to lock your perimeter fencing when not in use. The padlock is compatible with palisade, mesh, temporary fencing and steel hoarding gates. These locks can be fitted around the sliding latch bolts and will prevent any unauthorised access to your site.

[Show More](#)

In addition to these gates we would also need 10 units of looped security barriers @ £562.30
