

Committee	COUNCIL MEETING
Date	14 August 2023
Agenda Item	17

To consider measures to control parking in Slough Farm Road/Beridge Road

Residents request - Slough Farm Road with its junction of Beridge Road
CO9 1XR.

1. Please can the Slough Road Farm road sign be changed to include the symbol or words of no through road. This road has always been a no through road since it was built.
2. Can yellow lines be inserted at the junction with Beridge Road to allow ease of access for refuse vehicles, grocery delivery vehicles, builders' lorries, ambulances etc.
3. Can white lines be placed across the driveway of number 2 and 4 Slough Farm Road giving us better visibility when leaving our drive to join Slough Farm Road.
4. Can the North East Essex Partnership patrol Slough Farm Road as vehicles are now parking on the pavement during the evening and night close to the junction of Slough Farm Road and Beridge Road.

Slough Farm Road has a history of poor access through parking close to the junction Road, Braintree District Council (refuse team) know this. The problem persists and is getting worse hence this request to action a review, and hopefully a change for the better.

Recommendation

1. That HTC refers this request to the LHP
2. That HTC contacts NEPP concerning parking close to the junction of Slough Farm Road and Beridge Road

Sarah Greateorex
