Reasons You'll Love Our Ultra-Lit Montagna Fir Tree...

This is one for the Yuletide fanatics! If you're serious about having the [most realistic artificial Christmas tree](#) this year, then hey presto – you've found it.

A top-of-the-line tree you'll be showing off for years to come, the Montagna has myriad impressive qualities. Along with the extremely full and bushy foliage, this Ultra-Lit Montagna comes with a fantastic array of pre-attached 'micro' LEDs. These are smaller than normal lights and provide a brighter, more dazzling display.

Best of all, the tree is powered by the trunk slotting together. This unique tree lighting system not only assembly much simpler, but it also helps to keep cables out of sight. Picture shows 7ft tree in the range.

For more festive wonders, take a look at our collections of [pre-lit Christmas trees](#) and [bushy Christmas trees](#). And don't forget to shop our [Christmas decorations](#), [Christmas lights](#) and [Christmas tree skirts](#) to finish off that festive picture.
