Date	12 February 2024
Agenda Item	7d

To consider a small contribution to RBL funds in exchange for their hosting CCTV

As part of the Safer Streets campaign, it is likely to be possible to install CCTV at the public toilets and in the area around the Community Fridge within the budget. Preliminary site visits have been made, and RBL were very helpful in allowing the contractors to enter the building and decide on positions for cameras and maintenance. They are prepared to have the control unit installed in the RBL building. They have asked whether HTC could make a small contribution to RBL in exchange for this.

Recommendation: that HTC makes a contribution to RBL. The amount has yet to be specified.

Sarah Greateorex **Town Clerk**
