

	FULL COUNCIL
Date	11 March 2024
Agenda Item	7c

To consider funding the implementation of parking restrictions in Trinity Street

At the NEPP Joint Committee on 1 February 2024, the proposed Traffic Regulation Order, to implement parking restrictions from 7.00 – 19.00 allowing parking outside of these times Monday to Sunday for Trinity Street, was supported by Cllr Butland and agreed in principle by the Joint Committee. This is subject to the usual statutory consultation process and providing the cost (approx. £2k), can be met locally by the town council, as it did not meet the criteria for the scheme to be funded by the NEPP's TRO budget. If the town council is prepared to fund the cost, this will be confirmed with officers at the NEPP, so that they can include it in their planning of the various schemes that will need advertising.

Recommendation : that HTC agrees to implement parking restrictions from 7.00 – 19.00 allowing parking outside of these times Monday to Sunday, and to fund it from the car park major maintenance budget which currently stands at £7681. No major car park expenses are expected, and it is planned to add a further £2000 to these earmarked reserves at year end.

Sarah Greateorex **Town Clerk**
