

Committee	Council Meeting
Date	14 April 2025
Agenda Item	7d

To consider updating and refurbishing the external decoration at the public toilets

This matter was first considered at the March meeting, but has been brought back to council after consultation with experts on accessibility, and with the ECC Built Heritage consultant who manages matters related to conservation.

There are no accessibility issues with the use of the large symbols to represent toilets for men, women and those who are physically disabled.

The Conservation expert stated that green was an appropriate colour. It is suggested that Zinser exterior gloss satin is used in Chartwell green, and that the symbols be in white, to provide sufficient colour contrast for those for whom colour is challenging.

Colour

- **Chartwell Green**

The cost of the symbols will be £120 + VAT

The cost of the paint will be £60

Recommendation : that HTC approves the upgrade of the public toilets.

Sarah Greateorex
