

Committee	Full Council
Date	19 May 2025
Agenda Item	10a

Vision – councillors are asked to consider before the meeting on 16 June

An accessible large space for Arts & Community together engaging with the town Centre – regeneration of that part of the town

The proposed Arts and Culture Community Building aims to be a vibrant hub for creativity, education, and recreation, fostering connections and enriching lives. It will offer an accessible space for diverse activities, including cultural festivals, workshops, and events, while supporting local history preservation and sustainable practices. Designed to engage all segments of the community, it will feature flexible rooms, accessible designs, and innovative programming.

Beyond serving as a cultural cornerstone, the project will play a vital role in the regeneration of the Trinity Ward, revitalizing the area and enhancing its integration with the town centre. By blending innovation with heritage conservation, the facility promises to inspire creativity, encourage learning, and strengthen community bonds.
