To consider buying a floor scrubber for the Queens Hall floor

The Queens Hall floor was recently refurbished. It gets a lot of use with up to 5 bookings per day, and caretakers have to deal with rain, mud, salt, snow as well as spilt drinks. The company, who have now refurbished the floor twice, have said that a mop and bucket of water is not the best way to keep it in good condition. Mopping it is also very hard work. They have recommended that we buy a scrubber to maintain it in good condition. This could be bought from the current surplus, and it would be helpful to buy while the floor has recently been cleaned.

£1,610.11

(excl. VAT)

TT1840

[Home](#) » [Products](#) » [FloorCare](#) » [Compact Scrubber Dryers](#) » TT1840

Exceptionally compact mains design with 18L capacity, 400mm scrub width and performance equal to bigger machines to allow for easy, effective and efficient cleaning in tight, hard to reach spaces.

Although designed for small and congested areas, the TwinTec TT1840G is equally at home in larger areas and can be used in conjunction with our cable roll, extending the cable length from 20m to 40m without any loss of performance.

When it comes to quick and simple floor maintenance there are many smaller and often congested applications than bigger areas... Whether you're in a shop, cafeteria, showroom, office or bank, this is really cleaning the way it should be... you will never look back!

The style and proportion of the polyform water tanks allow for the machine to adopt a convenient tilt position for single handed brush or pad changing.

- **Compact & Convenient**
Performance of a bigger machine, in a smaller, more convenient package.
- **Clean, Dry & Safe Floors in Minutes**
Consistent, quick and high-quality cleaning results, wherever they're needed.
- **Optimise Productivity Everywhere**
Compact and unobtrusive design for small and congested areas.
- **User-Friendly Controls**
Incorporating user-friendly, colour-coded controls and soft-touch dash.

Recommendation : that HTC buys a Numatic floor scrubber using some of the surplus accumulated in the past year.
