To consider registering Queen's Hall with Land Registry

In gathering information for compliance with the Transparency code, it appeared that Queen's Hall is not registered with Land Registry. This is indeed the case, and should be remedied. A few years ago the carparks and toilets were registered, but this site has never been registered, and should be, in order that HTC can prove ownership.

In relation to the first registration our lawyers would estimate fees to be £750 plus VAT and disbursements.

Recommendation: that HTC registers Queen's Hall with Land Registry.

Sarah Greateorex Town Clerk
